

El Paso Auto Club To Sell Gas At 24 Cts.

Paid Up Members May Buy Books In 20 and 40 Gallon Lots.

Beginning April 1, paid up members of the El Paso Automobile club will be privileged to purchase standard grade gasoline at 24 cents per gallon, according to club officials.

The club has contracted for 2000 gallons at that price and is in a position to increase the amount as the demand is made. It will be necessary to purchase the gas in bulk of either 20 or 40 gallons from the club, but coupon books will enable users to secure it in any quantity desired.

The books will be sold to members of the club only, at the office of the club in Hotel Sheldon lobby. In other words, the club has contracted for gas in quantities at the wholesale rate and is to sell it out to its members in lots of 20 and 40 gallons at the same rate.

Manufacturers and Chamber Of Commerce Merge

Board May Employ Technical Engineer to Advise On Plants of City.

A merger of the manufacturers' association of El Paso with the trade extension department of the chamber of commerce was effected at a meeting of representative members of the former organization with officers of the chamber of commerce Thursday night. In uniting with the older body the manufacturers determined to retain their own organization and operate it as a branch of the chamber of commerce.

A dinner will be given on Thursday night, April 2, to which all manufacturers in the city will be invited, with a view to discussing and establishing the sentiment of manufacturers toward certain proposed projects related to the bringing about of cooperation with the chamber of commerce. Only El Paso made products will be served, so far as possible, at the dinner.

It was brought out in the meeting that a fund of about \$100 had been subscribed to the manufacturers' association, and one of the things to be discussed at the dinner is a proposition to divert this fund to the chamber of commerce, for the purpose of employing a technical engineer to render advice and assistance to the manufacturing plants of the city.

Talks were made by C. N. Bassett, K. M. Roberts, Clifton Adams, J. A. Smith, O. J. Allen and W. J. Blumstein. The sentiment of the manufacturers was unanimous on the proposition to unite with the chamber of commerce, though there was some difference of opinion as to the employment of a technical engineer. The saving of overhead expenses of a separate organization and a duplication of work which was being done by the chamber of commerce was urged as the principal reason for the consolidation.

"Everything in the nature of trade development should center through the chamber of commerce," said Clifton Adams, president of the Manufacturers' association. "If we are all in one family, we will help each other and be of mutual benefit."

THE PRUSSIAN CUR.
William Fox's big master drama of the war, "The Prussian Cur," will be shown at the Alhambra today only. While this picture was produced prior to the signing of the armistice it has none of its spectacular effect by reason thereof. The picture is produced on an elaborate scale and graphically portrays the extent to which Germany was willing to go in order to subjugate the world. The drama is compiled from revelations made by Horst von der Goltz, the notorious German spy who was sentenced to death in London Tower and later released. He meticulously testified against the perpetrators of the World War canal plot. Von der Goltz actually appears in this picture.

Tomorrow the Alhambra will show "The Love Defender," an excellent emotional drama in which June Kildare is featured, assisted by Frank Mayo and a very fine cast of players. Also, the third act of the Prima natural color picture will be shown. This time the subject is Kluge, the active volcano of Hawaii, which makes a beautiful, awe inspiring spectacle.

"THE SPENDER" FINE PICTURE.
"The Spender" which played to large and appreciative audience at the Unique theater yesterday, is a picture deserving of the highest praise which can be given. It stars Bert Lytell, who has achieved the best work of his career in this unusual and delightful play.

The screen adaptation was made from the story of the same which appeared in the Saturday Evening Post and which was written by Frederick Olin Bartlett, noted for the wit and humor of his writings.

The plot is an original one showing how Dick Dabbe, young and vigorous and full of the joy of living, persuades his avaricious and miserly old uncle that "there are no pockets in a shroud" and that money was meant to be spent on earth. The uncle, hoary and barnacled with age, decides to take his nephew's advice and learns what money can do.

When you see "The Spender" you will feel that life is worth living.
